Productive Scanning in a Compact Solution

imageFORMULA DR-M1060 Office Document Scanner

Compact and economical, the Canon imageFORMULA DR-M1060 document scanner helps in information management efficiency and workflow improvements. With a versatile design, reliable handling, and image capture precision, the user-friendly DR-M1060 scanner can enhance productivity in any office setting.

Wide Range of Uses

The DR-M1060 scanner offers an efficient document capture system, making it an ideal solution for departments in various industries, such as legal and financial services, healthcare, retail trade, and more. Equipped to handle volumes of paperwork, the DR-M1060 scanner provides powerful information management while increasing office desk space. When combined with the bundled software, the DR-M1060 scanner can be used for reducing document preparation time, converting documents into editable electronic files, enhancing scanned images, file distribution and sharing, PDF creation, and additional convenient functions.

Reliable and Versatile

Users often face the challenge of managing and scanning all kinds of paperwork for many activities. To handle a variety of document types, the DR-M1060 scanner incorporates two versatile feeding paths: U-turn and straight feeding. The multifeeding paths of this ledger-sized scanner allows for the processing of thick, thin, or long documents, including business cards and embossed plastic cards. The DR-M1060 scanner also includes pickup feeding and paper feed error detection sensors to help identify feeding troubles and minimize critical damage to the document for reliable paper feeding.

Compact and User-Friendly

The body design of the DR-M1060 scanner enables users to scan documents seamlessly, without the need for a lengthy feed tray or eject tray. A minimalistic design helps to maximize desk space and leave plenty of room for other important office tasks. A user-friendly control panel allows for the selection of various scan jobs, and the batch scanning ability helps ensure users are able to tackle all kinds of paper jobs.

Productive and Efficient

The DR-M1060 scanner can scan up to 60 pages/120 images per minute—including color, black-and-white, and grayscale—and can process up to 7,500 documents per day. With these functional capabilities, the DR-M1060 scanner helps to boost and reinforce productive workflows.

Precise Image Capture

The DR-M1060 scanner maximizes image capture precision with a number of features, including the ability to automatically detect color documents in mixed batches for efficient processing. For hard-to-read documents, the Text Enhancement capability helps in the improvement of characters through clear font outlining and bolding. Additional features, such as a setting for scanning mixed batches of documents and photographs, make the DR-M1060 a practical and useful solution for daily office scanning needs.

Environment in Mind

The DR-M1060 scanner meets ENERGY STAR® guidelines for energy efficiency and complies with the EU RoHS and WEEE directives for reduction of hazardous substances and waste products.▲

Customer Care

For investment protection, eCarePAK options are available on the DR-M1060 scanner. eCarePAK extends service beyond the initial one-year advanced exchange warranty period, saving on costs associated with post-purchase maintenance and helping to maximize uptime throughout the product life.
