

Panini Teams with Tech Imagine Inc. at Premier Latin American Financial Technology Conference

Panini, a global payments technology provider, will join partner Tech Imagine Inc. at the Felaban CL@B Annual Conference in Miami, Florida September 2-4, 2015 in booth #204. Panini will showcase its comprehensive portfolio of check truncation technologies including state-of-the-art solutions for branch image capture (BIC), and remote deposit capture (RDC).

This year also marks Panini Limitada's 5th anniversary. Panini has been engaged in the Latin American financial services market for many years and has experienced growing success. For the 2015 edition of this major event, Panini is celebrating its office anniversary. The Panini Limitada location has allowed Panini to extend its reach and understanding of the Latin American market, and to better serve its customers throughout the continent.

"We are pleased to attend Cl@b, a strategic conference for the LATAM payments industry. During Cl@b we will offer a live demo of our solutions and be on hand to answer your questions," says Paula Marques – Account Manager, Panini Limitada.

Panini will feature a wide range of check capture solutions from their continuous innovation portfolio including the Panini Vision neXt™, their newest platform for the most demanding and time sensitive teller capture environments; and Panini's newest scanner the Vision 1 will be available for demonstrations. This new scanner for checks and bills is a single drop feed, high value version of Vision X for highly professional and user-friendly small-medium business Remote Deposit Capture or low volume Teller Image Capture applications. Moreover, combining innovation and ease-of-use with wired or wireless connectivity to POS terminals, and mobile platforms, the Panini

ml:Deal™ offers the most reliable and economical capture of checks in a wide variety of retail, branch and mobility capture applications.

Tech Imagine will also have their two software solutions for Point Of Sale on display, the SPOs and XPOs. The XPOs version uses your smart phone (IOS6 or Android) and the ml:Deal, while the SPOs is the standard version and works with the ml:Deal and the merchant's POS system. Tech Imagine also has a new release of the Cloud Check software, which is the perfect tool for Financial Institutions to administrate and easily access all check images and data coming from multiples Remote Capture Solutions.

About Panini

Founded in Turin, Italy, Panini has enabled clients to capitalize on shifts in the global payments processing market for more than seventy years. Panini has a rich history of technology innovation, and Panini's market leading solutions are based on state-of-the-art research & development and ISO-9001 quality certified production. Panini offers capture solutions that enable customers to fully realize the advantages and efficiencies available with the digital transformation of the paper check, resulting in the world's largest deployed base of check capture systems, now approaching one million devices. Panini's scalable capture solutions digitize checks and payment related documents and transactions to address the complete range of distributed check processing opportunities including teller capture, back-counter capture, remote deposit capture, point-of-sale capture and remittance processing. The company provides solutions on a global basis, and has direct subsidiary operations in the United States covering North America and in Brazil covering Latin American markets. About Tech Imagine Inc.

Tech Imagine Inc. has been in the business of complex and large paper-based sorters and scanners. Throughout all this time, we have excelled in innovating technology in order to satisfy the needs of our ever growing customer base. Our philosophy has always been to offer high quality products and services that satisfy the demanding needs of our customers.

In the past 20 years we have been in the Latin American and Caribbean market through well-known and successful distributors. These trustworthy distributors have increased our market share and visibility. We are very pleased of having conducted business in this region and are sure of the large potential our products have in this region.

Due to the fact that Latin America is in an expansion mode and our distributors have set us up in a situation where the next logical step is to grow our presence, we have decided to join forces with world class manufacturers of cutting edge technology. through this new structure we will cover the market in such a way as to satisfy all of our customer's present and future needs.

By consolidating our efforts and developing good marketing support structure, we are sure that our commitment of offering a wide range of products and solutions will be maintained. For more information visit: www.techimagine.com.
