

Plustek eScan is on a winning streak! eScan A350 and eScan SharePoint winners – 2018 Taiwan Excellence Awards

The Plustek eScan A350 and eScan SharePoint were awarded with the Taiwan Excellence Award 2018 for meeting the requirements regarding innovation, design and quality.

Taipei, Taiwan (Dec. 08, 2017) - Plustek Inc., a manufacturer of consumer, prosumer and professional imaging and security devices, received the honorable Taiwan Excellence Award 2018 for the network scanner eScan A350 and eScan SharePoint.

The Taiwan Excellence Award is an internationally recognized symbol for representing quality products from Taiwan to the rest of the world by the Taiwan's Ministry of Economic Affairs. Each potential award candidate is assessed by the professional Taiwan Excellence committee on the merits of their research and development capabilities, design elegance, quality of workmanship and marketing accuracy. This award also represents the technological innovation and dynamics of Taiwan's industry experts in creating distinctive products that provide convenience, functionality and which all help to boost productivity and lifestyle.

Several years in the developing, the Plustek eScan A350 is the big-touchscreen standalone network scanner value-priced for small offices. The key-scanning feature is in its intuitive user interface providing the simplest way to scan in the industry. It allows forwarding documents to any destination in just three steps and deliver files to multiple destinations simultaneously.

The Plustek eScan SharePoint. Based on its popular eScan network standalone scanning kiosk, the SharePoint version allows users to scan paper documents directly into SharePoint Online and On-Premise, Microsoft Office 365, and network folders through an intuitive 7-inch touchscreen, no PC required.

The Plustek standalone document scanning kiosk was tailor-made for SharePoint and Office 365 users to easily convert paper documents and save them directly into their designated folder or library, complete with metadata. This greatly reduces the usual document management scanning workload of having to scan to a PC, rename, add metadata and transfer the file in four separate steps. The eScan SharePoint can be pre-configured with user profiles and scanning tasks to become a seamless part of a company's document management process.

"We're honored to have eScan A350 and eScan SharePoint products be selected for the Taiwan Excellence Award 2018," said Karen Ku, VP of Sales. "We're endlessly striving to advance new innovation and improve quality to ensure Plustek's products meeting customers' need."
