

Kapow Robotic Process Automation Software and Solutions to be Highlighted at bpmNEXT 2017

Kofax will Provide Expert Insight into Creating a Digital Workforce with RPA

Irvine, CA, April 17, 2017

- Kofax®, a leading provider of software to simplify and transform the First Mile™ of business, today announced Kofax Kapow™ robotic process automation (RPA) expert, Anthony Yung, will deliver a presentation at bpmNEXT 2017, which will be held April 18-20 at the Canary Hotel in Santa Barbara, CA.
- Yung's session, entitled "Creating a Digital Workforce with Robotic Process Automation," will examine how organizations can deploy intelligent software robots as a digital workforce to perform both routine back office processes and more strategic process automation tasks.
- His session will take place in the Canary Hotel Ballroom on Tuesday, April 18, from 2:15 to 2:45 p.m.
- Touted as "The Definitive Showcase of Business Process Management Software," bpmNEXT covers advanced analytics, blockchain, decision management, digital transformation, RPA, artificial intelligence, the Internet of Things, process mining, and the next generation of BPMS platforms.

Supporting Quote

"The value of robotic process automation is its unique ability to automate many labor intensive tasks, significantly reduce costs and accelerate digital transformation initiatives," said Reynolds C. Bish, Chief Executive Officer of Kofax. "At bpmNEXT, we'll demonstrate how organizations can leverage RPA as part of a more holistic approach to building a robust digital workforce, freeing knowledge workers to perform more valuable assignments."

About Kofax

Kofax is a leading provider of software to simplify and transform the First Mile™ of business.
