

Forum Banca 2015

Tuesday, September 29, 2015

Join Panini in Milan on September 29, 2015 for Forum Banca 2015 - Starhotels Business Palace, booth C.

Panini will display their innovative patented security system (Italian Patent and Trademarks Office/UIBM – application TO2013A001058) for the management of the new Italian check format being introduced by ABI (Italian Banking Association), along with the leading-edge capture and decoding capabilities which have always characterized Panini devices. The company's solutions deliver compliance with the new Italian law and meet all demanding security requirements (Datamatrix 2D barcode, CMC7 magnetic codeline, and microperforated security string).

Panini solutions that have always been a hallmark of improved teller and branch operations in banks and post offices have been enhanced to meet the demands of today's marketplace ranging from mobile operations (such as roaming agents or temporary branches) to remote deposit capture (RDC) applications, and point-of-sale processing of checks and meal voucher based payments.

Panini will also be offering demonstrations of the Panini ml:Deal, the first wireless check scanner operable with tablets to realize a flexible and complete commercial mobile RDC for small and micro-businesses and professionals.
