Competitive data gathered from manufacturer websites and third-party industry sources as of July 2016. | 2 Up to 30 percent (WF-3720) and up to 50 percent (WF-4720/WF-4730/WF-4734/WF-4740) compared with best-selling, color laser multifunction printers priced at \$299 (USD) or less, as of August 2016. Calculation based on continuous printing with highest-capacity individual cartridges sold in retail. Actual savings will vary based on print task and use conditions. | 3 Most features require an Internet connection to the printer, as well as an Internet- and/or email-enabled device. Wi-Fi Direct may require printer software. | 5 NFC requires use of a device that includes NFC, and may require additional software. | 6 Monthly duty cycle is the highest duty a user could expect in a month, based on near constant operation of a device of this kind. It is not recommended that the device be run at this duty. For best device performance, run the device at the recommended duty. | 7 Requires an Internet connection, a free Epson Connect account and a destination email address or cloud storage account. Actual print stability will vary according to media, printed image, display conditions, light intensity, temperature, humidity and atmospheric conditions. Epson does not guarantee the longevity of prints. For maximum print life, display all prints under glass or UV filter or properly store them. | 12 Replacement cartridge yields are based on ISO/IEC 24711 tests in default mode printing continuously. Cartridge yields vary considerably for reasons including images printed, print settings, temperature and humidity. Yields may be lower when printing infrequently or predominantly with one ink color. All ink colors are used for printing and all-in-one maintenance, and all colors have to be installed for printing. For print quality, part of the ink from the included cartridges is used for printer startup and a variable amount of ink remains in the cartridges after the "replace cartridge" signal.
