EXCEED YOUR VISION

WorkForce® Pro WF-C5290
Replaceable Ink Pack System

Wireless | Print | Ethernet | PCL[1]/PS3

Powered by
PRECISIONCORE®

Compact, cost-saving network printer built for productivity.

Powered by PrecisionCore® — the next-generation of inkjet printing technology; plus, Epson's innovative Replaceable Ink Pack System

Easy on your budget — up to 45 percent lower total printing costs vs. color laser[2]

Productive workspace — compact footprint for a streamlined, efficient workstation

Blazing fast print speeds; no warmup time — 24 ISO ppm (black/color)[†]; plus, fast first page out

Open-platform ready — seamless integration with enterprise applications such as PaperCut MF and other workflows; supports PCL[1] and PostScript® 3™

Security features — PIN number certification for job release; user control access; printer and network settings via Web Config with printer's IP address; SSL/TLS security; IPsec

Minimize your interventions — Replaceable Ink Pack System lets you print up to 5,000 ISO pages without changing the ink packs[3]; plus, up to 830 sheets total paper capacity with optional second paper tray

Enabled for remote printer data collection — compatible with MPS software solutions from PrintFleet®, ECi (FMAudit®) and others

Designed for use exclusively with Epson® ink packs.*

† Black and color print speeds are measured in accordance with ISO/IEC 24734. Actual print times will vary based on factors including system configuration, software, and page complexity. For more information, visit www.epson.com/printspeed | †† Maximum print speeds are measured with text patterns in Draft Mode on plain paper. Actual print times will vary based on factors including system configuration, software, and page complexity. | 1 Not all media types are supported for PCL printing. | 2 Compared with best-selling, color laser printers priced at $499 (USD) or less and 30 ppm or less, as of October 2017. Calculation based on continuous printing with highest-capacity individual cartridges. Actual savings will vary based on print task and use conditions. | 3 Replacement ink pack yields are estimated based on ISO/IEC 24711 test in Default Mode printing continuously. Ink pack yields vary considerably for reasons including images printed, print settings, temperature and humidity. Yields may be lower when printing infrequently or predominantly with one ink color. All ink colors are used for printing and printer maintenance, and all colors have to be installed for printing. For print quality, part of the ink from the included ink packs is used for printer startup and a variable amount of ink remains in the ink pack after the "replace ink pack" signal. For details, see www.epson.com/inkinfo | 4 Monthly duty cycle up to 45,000 is the highest duty a user could expect in a month, based on near-constant operation of a device of this kind. It is not recommended that the device be run at this duty. For best device performance, run the device at the recommended duty of 2,500 pages per month. | 5 Most features require an Internet connection to the printer, as well as an Internet- and/or email-enabled device. For a list of Epson Connect enabled printers and compatible devices and apps, visit www.epson.com/connect | 6 Wi-Fi CERTIFIED™; level of performance subject to the range of the router being used. Wi-Fi Direct may require printer software. | 7 Only printing is supported under Windows Server OS. | 8 Some applications and/or functions may not be supported under Mac OS X. | 9 Based on ENERGY STAR TEC measurement methodology; 288 prints/day; actual electricity consumption may vary depending on printer use. For more information, see www.energystar.gov | 10 Internet access is required to install all OS drivers and software. | 11 For convenient and reasonable recycling options, visit www.epson.com/recycle | 12 SmartWay is an innovative partnership of the U.S. Environmental Protection Agency that reduces greenhouse gases and other air pollutants and improves fuel efficiency.
