

To: Canon U.S.A., Inc. ICS imageFORMULA Business Partners  
Subject: California Proposition 65

**IMPORTANT NOTICE:**

Business Information Communications Group, Image Capture Solutions

We declare under our sole responsibility that the Canon branded products supplied by Canon USA, Inc. are in conformity with the essential requirements of California's Proposition 65. This is based on the assessment of our suppliers concerning the requirements in Canon's own Green Procurement Standards which have been established in compliance with CA Proposition 65. All Canon branded products meet current CA Safe Harbor Limits and therefore, do not require additional labeling as mandated in CA Prop 65's "clear and reasonable warning" requirement.

With that said, we have been informed that a certain number of OEM products which are not Canon branded, may contain Prop 65 chemicals that exceed Safe Harbor Limits and require proper warnings and labels prior to sale in California.

The Scan Kiosk II supplied to you contains Lead and requires proper warning to all downstream consumers prior to sale in California. This includes, but is not limited to, product and packaging labelling and internet warning labeling if intended for "internet purchases". Please see warning statement below provided by the supplier which should be passed along to your downstream customers.

This product can expose you to **Lead**, which is known to the State of California to cause **cancer** and **reproductive harm**. For more information go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov). Please wash hands after handling.

Canon U.S.A., Inc. requests that its business partners take necessary steps to ensure that they are complying with applicable laws and regulations concerning California Proposition 65. Please contact Canon U.S.A., Inc. with any questions regarding labeling requirements.

Thank you for your cooperation.

Sincerely,

Canon U.S.A., Inc.
