

## Turning Data Chaos into business opportunity

Today's complex data environment needs an integrated approach to information capture. The Alaris IN2 Ecosystem delivers the best information capture solution for your business with industry leading scanners, software, and services delivered by a network of trusted partners.

Our software, when combined with Alaris scanners, offer intelligent capabilities that increase your productivity.

## Software from Kodak Alaris

### >Kodak Capture Pro Software

A great choice for both centralized and distributed high-performance scanning environments:

- Flexible and powerful batch capture especially in BPOs and centralized mailrooms
- Deliver to databases and applications, including Enterprise Content Management (ECM) systems and **Microsoft SharePoint Online (Office 365)**
- Dedicated workstation-based software ensures security and reliability - no reliance on internet connectivity for scanning and processing
- Enhance productivity with advanced indexing capabilities and cut data-entry time by 50%
- Image review and correction via Intelligent Quality Control

### >Kodak Info Input Solution

A web-based and mobile capture application that is easy for workers who regularly scan across departments and enterprises to implement and use.

- Satisfies the advanced capture needs of workers that scan regularly
- Enables easy information capture from scanning, smart devices and digital files (including email) from one application
- Maintains security and capture of business critical information via an app on a mobile device
- Captures and indexes from within current business applications
- Connects to Enterprise Content Management, Enterprise Resource Planning, Business Process Management, and workflow solutions

### >Kodak Info Input Express

Info Input Express is an easy, intuitive web-based capture solution designed to allow ad-hoc users or knowledge workers to simply scan and capture via mobile, index, convert and submit documents to their desktop or business systems.

- Set up user groups and defined workflows easily from a central administrator and share to different departments or remote sites
- Scan directly into predefined workflows via Smart Touch functionality when using scanners from Kodak Alaris
- Extend the functionality of your thick-client capture solution with ability to simplify the user interface
- Catalog function enables you to record the document location and indexed data, ensuring a clear chain of custody

### >Kodak Asset Management Software

System administrators can manage and maintain select scanners from Kodak Alaris on their network through one simple dashboard solution.

- Uses a thin-client dashboard to help optimize time, budgets, resources, and efficiency
- Know more and do more by remotely managing scanners from Kodak Alaris
- Quickly deploy updates and upgrades in a centralized way

## >Services from Kodak Alaris

Our team's comprehensive knowledge of products and solutions, combined with a keen understanding of your organization, helps you harness the power of big data to make your capture workflow more productive and information management more impactful.

- Expert repair and maintenance services to optimize uptime and productivity
- Highly responsive, world-class field engineers and remote support experts who know your equipment and workflow
- Flexible service plan choices, value-added professional and managed services, and much more

## Take the complexity out of information capture

We are in the era of Data Chaos and businesses today are dealing with an exponential growth of data. An inability to harness this critical data and transform it into information leads to complexity and lost opportunity across your business.

The question isn't if you should make this digital transformation - it's where to begin.

The answer is simple: digital transformation starts with information capture - the challenge Alaris solves better than anyone.

**Introducing the Alaris IN2 Ecosystem** — designed to take the complexity out of information capture, now and for the future.

The Alaris IN2 Ecosystem integrated approach to information capture gives you the:

- **Right Fit:** Solutions to fit your business goals, environment, and budget
- **Right Experience:** Solutions that simplify your work - from acquisition through operation and ownership
- **Right Results:** Solutions that deliver superior business value through fast, accurate, reliable information capture
