

Epson WorkForce DS-40 Wireless Portable Document Scanner Enables Mobile Organization and Productivity

WorkForce DS-40 Ensures Easy Scan-to-Cloud, PC or Mobile Device While On-the-Go

April 28, 2014

FT. LAUDERDALE, Fla. (Filebound) – April 28, 2014 – Epson, a leading provider of exceptional performing business imaging solutions, today introduced the WorkForce® DS-40, its first wireless portable document scanner. Weighing just over one pound, the WorkForce DS-40 enables users to increase efficiency and organization with Wi-Fi™ connectivity for point-to-point scanning directly to a PC, Mac or mobile devices, as well as one-touch scan-to-cloud capabilities². With its robust feature set, the DS-40 provides full-function flexibility for business professionals either on the road or in the office.

Save Time with Full-function Flexibility

The WorkForce DS-40 offers a wide range of productivity features, including its ability to scan directly to popular cloud services such as GoogleDrive™, Evernote®, OneNote®, and more³. Because it is powered by battery or USB source, users have the flexibility to take the DS-40 on the road and to scan directly to a mobile device, which is ideal for professionals working remotely that require instant access to critical documents.

Users can scan a variety of originals—from documents up to 8.5 inches by 361 inches to receipts, business cards or rigid ID cards—and take advantage of advanced correction tools, including auto-sizing and enhancing text quality, correcting image skew and removing punch holes. The WorkForce DS-40 allows for seamless integration into workplace infrastructures with the availability of a TWAIN driver, making it compatible with most existing third-party software.

“Epson is committed to increasing productivity and organization for businesses, and the wireless WorkForce DS-40 provides on-the-go professionals with a reliable mobile solution for convenient, instant upload access to the cloud or handheld device,” said Heather Litus Johnston, product manager, Document Scanners, Epson America, Inc. “The WorkForce DS-40 delivers top-tier digital imaging quality in an easy-to-use portable package for a variety of business applications.”

Additional features of the WorkForce DS-40 include:

- **Extremely portable:** Weighs 1.1 pounds; small enough to slip into a computer bag
- **High-quality scanning features:** Simplex scanning creates editable text and searchable PDFs; professional image quality at up to 600 dpi
- **Robust software package:** Supports Epson Document Capture Pro and includes ABBYY FineReader®, and NewSoft BizCard®

Availability and Support

The Epson WorkForce DS-40 (\$179.99 MSRP) will be available this summer through major resellers, office retailers, and direct on Epson.com. The scanner features a one-year limited warranty, along with optional extended service plans and overnight exchange programs. For more information about Epson scanners visit www.epson.com.
