

WorkForce[®] Document Scanners

- **Choice** — the widest range of configuration options in the industry
- **Integration** — seamless compatibility with document management systems
- **Value** — easy and affordable scanning for document management

Epson's WorkForce document scanners are the intelligent choice for document management in educational environments. Featuring one of the industry's largest portfolios, Epson delivers a broad array of scanning solutions designed to meet the needs of your school or district. Scan tests with integrated Optical Mark Recognition (OMR) for test grading, plus student records and school materials, quickly and easily. Epson scanners also reduce storage costs and improve efficiency, allowing teachers to spend more time with students.

Designed for situations where speed is critical and dependability is paramount, WorkForce scanners offer world-class performance at a significant value. It's the smart solution for distributed scanning in the education sector.

A3 Document

Scan oversized documents
in one pass

Share scans with optional
network interface

World-class performance and reliability from a leader in image capturing technology.

BROAD RANGE

The widest array of configuration options.

- Epson offers more network scanner options than any vendor in the industry
- Choose from 30 scanners that can be configured in a document management system
- Broad portfolio provides IT with maximized flexibility and workflow optimization

EASY INTEGRATION

Seamlessly integrates with document management systems.

- Epson is certified with over 70 key ECM software providers for easy integration with document management solutions
- Compatible with existing software — TWAIN and ISIS® drivers are included on all key commercial scanners

SMART INVESTMENT

Strong value for both purchase and integration.

- Significant savings vs. competitive brands
- Broad portfolio facilitates buying only the functionality you need
