

Nexsan wins Storage Product of the Year at the 2017 Storage Awards

Campbell, Calif., & London, UK – June 20th, 2017 – Nexsan™, a global leader redefining unified storage, today announced that its flagship product Unity, was awarded Storage Product of the Year at the 2017 Storage Awards.

Attended by over 400 leading IT professionals, the annual Storage Awards took place at The Grand Connaught Rooms in Covent Garden. The awards provide readers of Storage Magazine (UK) the opportunity to cast their vote, recognizing outstanding products, services and people in the storage and IT industry. With more than 50,000 votes cast, Nexsan's leading hyper-unified storage system was selected as Storage Product of the Year.

This award recognizes Nexsan's commitment to delivering innovative, ground breaking storage products. As the industry's first unified storage platform that combines enterprise NAS and high-performance block storage, PLUS enterprise file sync-and-share, Nexsan is leading the way in developing storage products for the modern workforce. The award comes hot on the heels of Nexsan's recently announced next generation Unity 2.0.

In order to meet increasing customer demand for its awards winning Unity solution, the company has also launched Unity in Japan and Germany, accelerating its global expansion.

Geoff Barrall, COO at Nexsan commented: "We were up against some tough competition this year and we are thrilled to have been awarded Storage Product of the Year at such a prestigious event. Nexsan's vision is to continue to deliver leading unified storage and we are driven to transforming the storage industry for today's modern workforce. This award distinguishes Nexsan as a key player within the storage space."

About Nexsan

Nexsan™ is leading the way in redefining unified storage. The company has been at the forefront in developing world-class storage technologies that are focused on the critical needs of our customers. Nexsan Unity™ is one of the first enterprise-class unified storage solutions to incorporate secure file sync and share in a single platform. Nexsan Assureon™ delivers secure archive storage for the most compliant of industries and our renowned E-Series is the storage backbone of many data centres around the world due to its high performance, reliable, high density storage. Nexsan is headquartered in Campbell, CA. For more information, please visit: www.nexsan.com.
